

SUBMISSION FOR A RESIDENTIAL PERMIT CHECKLIST

- Zoning Permit
- Soil and Erosion Plan
- Driveway Permit (if on state highway)
- Sewage Permit
- Well Permit
 - Public Water
 - Public Sewer
- Two set of Construction Plans
- Property Owner's Certification and Indemnity Form
- Workers' Compensation Insurance Affidavit
- Building Permit Application
- No payments will be accepted until a permit has been issued.
- We accept checks made payable to East Marlborough Township and credit cards.
- Contact information is important.

If you have any questions, contact:

Charlie Shock-Building Inspector/Zoning Officer - 610-220-9294 /
shockey7@verizon.net

OR

Scott Moran-Plans Examiner & Inspector - 610-637-1003 /

East Marlborough Township

Residential and Commercial Building Permit Application

721 Unionville Road, Kennett Square, PA 19348 / Phone: 610-444-0725

Office Use Only

Date Received _____

Date Due _____

Permit Number _____

Owner/Contractor/Architect or Engineer Information:

1.) Owner Name _____ Address _____

Phone # _____ Email Address _____

2.) Contractor _____ Address _____

Phone # _____ Email Address _____

PA Registration _____

3.) Applicant _____ Address _____

Phone # _____ Email Address _____

Location of Building:

Address _____

Tax Parcel #: _____ Zoning District _____ Lot# _____ Lot Size _____

Cost of Improvement:

Cost of Improvement _____ Plumbing _____ Heating/Air Conditioning _____

Other _____ Electrical _____ Total Cost of Improvement _____

Scope of Work (please be specific):

Residential Building Only:

Number of Bedrooms _____

Number of Bathrooms _____

Type of Sewage Disposal (please circle):

Public (EMT sewer)

Private (septic tank, etc.)

Type of Water (please circle):

Water Company

Private (well, cistern)

Dimensions:

Number of stories _____

Total square feet of floor area, all floors
based on exterior dimensions _____

Total land area, sq ft _____

Principal Type of Heating: (please circle):

Gas Oil Propane

Electricity Coal

Other _____

Number of Off-Street Parking Spaces:

Enclosed _____

Outdoors _____

RESIDENTIAL ZONING PERMIT

Please fill the information out completely.

Applicant/Contractor Name: _____

Applicant/Contractor Address: _____

Applicant/Contractor E-mail: _____

Applicant/Contractor Phone Number: _____

Name of Property Owner: _____

Address of Property Owner: _____

E-mail of Property Owner: _____

Phone Number of Property Owner: _____

Zoning District: _____ Tax Parcel Number: _____

Scope of Work: _____

Location of Building: _____

Circle one:

- ☐ New Construction
- ☐ Addition or Renovation
- ☐ Accessory (pool, deck, fence, shed, detached garage...)

***This permit must be accompanied by a sketch showing the plot plan, existing structures, and proposed construction.**

For building permit/zoning questions please contact:

WORKERS' COMPENSATION INSURANCE COVERAGE INFORMATION

(ADDENDUM TO BUILDING PERMIT APPLICATION)

A.) The applicant is:

Name of applicant: _____

Address: _____

Email address: _____

(a contractor within the meaning of the Pennsylvania Worker's Compensation Law)

- ☐ Yes
- ☐ No

If the answer is "yes", complete Section B & C below as appropriate

B.) Insurance Information

Applicant is a qualified self-insurer for workers' compensation

- ☐ Certificate attached

Name of Worker's Compensation Insurer

Workers' Compensation Policy No.

- ☐ Certificate attached

Policy Expiration Date: _____

Applicant must supply East Marlborough Township with a Workers' Compensation Certificate, which includes the effective date of the coverage and the signature of the insurer. This certificate shall be kept on file with the building permit.

I verify that my responses to these questions are true and correct to the best of my knowledge, information and belief. I understand that false statements herein are subject to the penalties of Pa.C.S.A., Section 4904 relating to unsworn falsification to authorities.

Signature of Applicant: _____

C.) Exemption

Complete Section C if the applicant is a contractor claiming exemption from providing workers' compensation insurance.

The undersigned sears or affirms that he/she is not required to provide workers' compensation insurance under the provisions of Pennsylvania's Workers' Compensation Law for one of the following reasons, as indicated:

- ☐ Contractor with no employees. The contractor is prohibited by law from employing any individual to perform work pursuant to this building permit unless contractor provides proof of insurance to the township.
- ☐ Religious exemption under the Workers' Compensation Law.

Subscribed and sworn to before me this:

Date: _____

Signature of Notary: _____

I verify that my response to these questions are true and correct to the best of my knowledge, information and belief. I understand that false statements are subject to penalties of 18 Pa C.S.A., Section 4904 relating to unsworn falsification to authorities.

Signature of applicant: _____

(To be signed in presence of notary)

PROPERTY OWNER'S CERTIFICATION AND INDEMNITY

Name: _____

Address: _____

Tax Parcel Number: _____

I/we undersigned property owner(s), to whom a building permit has been issued by the East Marlborough Township for the construction of a building/accessory on the above captioned property, hereby verify that the building/accessory will be constructed pursuant to the said building permit. At the time an application for certificate of occupancy is being made, this certification confirms the building/accessory has been constructed strictly in accordance with the Pennsylvania Uniform Construction Code and its Amendments.

The undersigned further agree(s) to indemnify East Marlborough Township and Township officials and employees and save them harmless against any claim for any personal injury, property damage, or any other claim whatsoever which may at any time be brought against them in which it is alleged that the said building was not constructed in accordance with the said code, and/or that representatives or officials of East Marlborough Township negligently or improperly failed, in inspecting the said building, to observe, uncover or find any defective conditions, including but not limited to noncompliance with the said code: This indemnity includes reimbursement of attorney's fees and court costs.

The undersigned understand(s) that the statements herein are made subject to the penalties of 18 PA C.S.A. Section 4904 relating to unsworn falsification to authorities.

What the Construction Industry Should Know About Storm Water In Our Community

The construction industry plays an important role in improving our community's quality of life by not only providing new development, but also protecting our streams and rivers through smart business practices that prevent pollution from leaving construction sites.

Storm water runoff leaving construction sites can carry pollutants such as dirt, construction debris, oil, and paint off-site and into storm drains. In our community, storm drains carry storm water runoff directly to local creeks, streams, and rivers with no treatment. Developers, contractors, and homebuilders can help to prevent storm water pollution by taking the following steps:

1. Comply with storm water permit requirements.
2. Practice erosion control and pollution prevention practices to keep construction sites "clean."
3. Conduct advanced planning and training to ensure proper implementation on-site.

The remainder of this fact sheet addresses these three steps.

Planning and permitting requirements exist for construction activities. These requirements are intended to minimize storm water pollutants leaving construction sites.

- Pennsylvania's Erosion and Sediment Pollution Control Program (25 Pa. Code, Chapter 102) requires Erosion and Sediment Control Plans for all earth disturbing activities.
- The National Pollutant Discharge Elimination System (NPDES) Permit Program (25 Pa. Code, Chapter 92) requires that construction activities disturbing greater than one acre submit a Notice of Intent for coverage under a general NPDES permit.

Knowing your requirements before starting a project and following them during construction can save you time and money, and demonstrate that you are a partner in improving our community's quality of life. For more information about these programs, contact your local county conservation district office or the Department of Environmental Protection.

Erosion Control Practices:

- Perimeter controls (e.g. silt fence)
- Sediment traps
- Immediate revegetation
- Phased, minimized grading
- Construction entrance
- Protection of streams and drainage ways
- Inlet protection

Rain that falls onto construction sites is likely to carry away soil particles and other toxic chemicals present on construction sites (oil, grease, hazardous wastes, fuel). Storm water, if not properly managed, carries these pollutants to streams, rivers, and lakes. Erosion and sediment control practices can serve as a first line of defense,

Pollution Prevention Practices:

- Designated fueling and vehicle maintenance area away from streams.
- Remove trash and litter.
- Clean up leaks immediately.
- Never wash down dirty pavement.
- Place dumpsters under cover.
- Dispose of all wastes properly.

minimizing clean up and maintenance costs, and the impacts to water resources caused by soil erosion during active construction. Erosion controls can reduce the volume of soil going into a sediment control device, such as a sediment trap, therefore, "clean out" frequencies are lower and maintenance costs are less. When possible, divert water around the construction site using berms or drainage ditches.

In addition, use pollution prevention and "good housekeeping measures" to reduce the pollution leaving construction sites as well. This can be as simple as minimizing the pollution source's contact with rainwater by covering it, maintaining a "clean site" by reducing trash and waste, and keeping vehicles well maintained.

Plans such as erosion and sediment control plans and storm water pollution prevention plans are important tools for outlining the erosion control and pollution prevention practices that you will use to manage storm water runoff prior to breaking ground. Developing good plans allows for proper budgeting and planning for the life of the project. Proper installation and maintenance of erosion and storm water controls is essential to a plan that works. Training for on-site staff helps to ensure the proper installation and maintenance of erosion controls and pollution prevention practices. Inspect controls and management techniques regularly to ensure they are working, especially after storm events. If polluted storm water is leaving the site, you may need to repair or add additional storm water controls.

Your community is preventing storm water pollution through a comprehensive storm water management program. This program addresses storm water pollution from construction, but it also deals with new development, illegal dumping to the storm sewer system, and municipal operations. It will also continue to educate the community and get everyone involved in making sure the only thing that storm water contributes to our streams is . . . water! Contact your community or the Pennsylvania Department of Environmental Protection for more information about storm water management.
